

WREC-1000

AQUABAC XL water recovery tanks

FEATURES

- 1000-litre tanks save large volumes of water.
AQUABAC XL tanks can be combined with several Danube washing machines equipped with ET2 control:
- Until 8 washers of 35/45 kg
 - Until 4 washers of 60/80 kg
 - Until 3 washers of 100/120 kg
- 1, 2 or 3 AQUABAC XL tanks
• High-density polyethylene construction with galvanised steel outer reinforcement: durable

EFFICIENCY

- Saves up to 40-70% water** (depending on the type of programme and wash cycle)
Detergent savings: by optimising the use of water at the various stages of the wash cycle, AQUABAC XL tanks also reduce the need for detergent products to treat the water.

MAINTENANCE

- Fixing: holes are provided in the base for easy anchoring to the ground
Accessory kit for easy connection of washers to tanks (optional)
2 water level sensors in each tank indicating minimum and maximum water level

OTHERS

- Water and electricity connections required (not supplied with tanks)
An optional kit of pipes and fittings is available to connect 1 washing machine to 3 tanks
Washing machines can be fitted with the accessories required to install AQUABAC XL (1 kit per machine), AQUABAC XL is sold separately.
